

WALL MOUNT SINGLE SECTION CABINET

DESCRIPTION

Datacom single-section wall mount cabinet is suitable for applications where security and accessibility are required and floor space is at a premium. The cabinets are designed to hold multiple pieces of voice/data equipment comfortably. Datacom wall mount cabinets are constructed with rigid frames that can be fitted on a wall, ventilation is provided to allow active equipment to be installed, making it an ideal solution for small LANs, retail units, and remote sites. Datacom single-section wall-mounted enclosures are designed to hold standard 19" rack-mount equipment and patch panels. The cabinet features a lockable glass door, adjustable front profiles, and removable entry plates at the top and bottom.
